

Patio Storm Door

Specifications – Ordering Instructions

LARSON® Patio Storm Doors reduce heat loss in the winter and heat build-up in the summer.

- Easily installs over existing sliding patio doors
- Maintenance-free and self-storing year round
- Air space barrier provides additional insulation against the outside elements
- Interlocking door panels are constructed of tempered glass and minimize air infiltration
- Wrap around marine glazing and double weatherstripping—keeps all edges weather tight inside and out
- Inserts operate smoothly on adjustable ball bearing rollers
- Operating insert features twin pull handles with latch for non-operating insert
- Two-panel models are universal, three-panel models must designate operation
- Removable lower track for easy cleaning
- Available in three sizes to cover most standard door sizes
- Custom sizes also available
- Choose from white or earth-tone brown
- Standard size available in 2-3 weeks
- Custom size available in 4-6 weeks

NOTE: LARSON® Patio Storm Doors are measured tip-to-tip.
